

IAU Office of Astronomy for Development

Annual Call for Proposals 2025: Stage 2

Deadline for Stage 2 application is end of day, September 15, 2025

Please note that only selected proposals are invited to Stage 2. If your proposal was selected for Stage 2, you would have received an email with information to access the Stage 2 application.

If you need support for accessibility, please write to us at info@astro4dev.org.

Although the OAD is a global office, English is the official working language of the OAD. We request that all applications be submitted in English. The OAD can provide translation assistance through its Language Centres and its global network of volunteers. If you need assistance with translations, please contact us at info@astro4dev.org at least 2 weeks before the application deadline.

This call for proposals is for projects to be implemented in 2026.

Stage 1 of the call is now closed. [Information on Stage 1 with links to background information on the call.](#)

BEFORE YOU APPLY

Before you apply, please visit the “[Getting Started](#)” section that provides the background on Astronomy for Development, resources and links to assist you with project design, monitoring, evidence and evaluation etc. You can take the free [online course on Astronomy for Development](#) designed to provide a helping hand to anyone who intends to submit a proposal. We have also published a [short course on “Introduction to Development Economics”](#) for those who are interested in gaining a deeper understanding.

You can also [search through the past projects funded by the OAD](#) to learn about the work done around the world, to check if your idea has been tried by anyone before, and to find resources developed by other projects which could potentially be used for your project.

APPLICATION

Selected proposals will be invited to Stage 2 during which the proposers will work with the OAD on their application.

The proposers will be asked to submit a draft Stage 2 application, accessible to the OAD team, the Regional Offices, and invited external experts, all of whom will help refine the proposal. The draft application will not be available to the review panel, who will eventually evaluate the applications.

The Regional Offices and Language Expertise Centres (ROADs/LOADs) will be able to suggest ways of improving a proposal to be locally relevant, thus ensuring support from possible local collaborators who could strengthen the project. The OAD, alongside the ROADs/LOADs, will provide feedback on the Stage 2 draft proposals, helping it align with the vision of astronomy for development. Proposals that do not fall under a relevant regional office or a language centre will work with the OAD. External experts, where necessary, would provide useful additional guidance, including a perspective on which projects are most likely to make an impact on development.

Based on the discussions with OAD and the Regional Offices, proposers modify Stage 2 application and submit online by the final deadline. The reviewers then score these modified Stage 2 proposals and make the final recommendations on the projects to be funded and the funding amounts for each project. Upon approval by the OAD Steering Committee, all applicants are notified of the results.

Grant:

The IAU has earmarked a total amount of **€80,000** for this 2025 call for proposals. In the past, individual project grants have ranged from 1,000 Euros to 15,000 Euros with an average grant of around 5000 Euros per project.

What can the grant be used for:

Projects are encouraged to spend most of the grant directly on beneficiaries (target audience). In particular,

- Salaries are typically not funded but stipends are possible if they are well justified
- Transport and accommodation costs of organisers and participants must be justified
- Administrative fees, such as institutional overheads, must be justified.
- When targeting children, projects can budget for meals and snacks, in accordance with relevant health, safety and cultural considerations.

Budget guidelines:

- At stage 2, a detailed budget must be submitted listing all the costs associated with the project (not only for the amount funded by the OAD) and a corresponding brief explanation of the cost
- For transport costs, please include details such as the number of people and approximate distance
- For accommodation costs, please include the number of people x number of days x cost per day
- For stipends, please include the number of people x number of hours x cost per hour

All projects should consider their liability in running activities and make suitable indemnity provisions where possible.

SELECTION

Selection Criterion	Corresponding questions on application (guideline only – information relating to a particular criterion may come from other questions also)	Scoring
		Does the proposal aim to solve one or more development

Challenge	<p>5. Which countries will your project target?</p> <p>8 a. Please describe the challenge your project aims to address and explain how this challenge is related to developmental gap(s) in the target region</p> <p>8 b. Does your project respond to one or more of the UN Sustainable Development Goals? Choose up to 3 SDGs that your project will impact.</p>	challenges in the target location?
Solution	<p>17 a. Will your proposal be a pilot project for one of the below Theme(s)?</p> <p>6. Project Summary</p> <p>9. Please explain how your project will use Astronomy to respond to each of the SDGs selected</p>	<p>Does it align with one or more Flagship-Themes?</p> <p>Is there a clear solution and plan that uses astronomy?</p>
Target audience	<p>16. In which languages will your project be delivered and/or written?</p> <p>7. Choose the primary target audience for your project</p> <p>12 a. Describe your target audience</p> <p>12 b. Please explain how audience Diversity, Inclusion and Accessibility have been considered in your proposal.</p>	<p>Is the project targeting the right audience and using the appropriate languages?</p> <p>Has audience diversity been given sufficient consideration?</p>
Project team	<p>13 a. Team Credentials</p> <p>13 b. Any comments on your team composition</p> <p>13 c. Partners & Stakeholders</p>	<p>Is the project team well qualified and diverse in terms of professional and social backgrounds and experiences?</p> <p>Do they have the right partners?</p> <p>Have they made efforts to engage the stakeholders of the project?</p>

Outcomes and Impact	<p>11 a. What are the intended outcomes of your project ?</p> <p>11 b. How will you measure these outcomes ?</p>	<p>Will the project make a strong impact (in terms of outcomes)?</p> <p>Are the outcomes clearly defined?</p> <p>Do they have the appropriate means to measure the outcomes?</p>
Deliverables & Timeline	<p>10. Deliverables</p> <p>14. Project Schedule</p>	<p>Are the deliverables clearly defined and suitable (in terms of resources requested and challenges being tackled)?</p> <p>Is the timeline realistic?</p>
Innovation	<p>18. How does your project innovate and/or build on lessons/experiences learned from others?</p>	<p>Are they proposing any innovative methods? Or at least building on existing evidence?</p>
Risks	<p>19. Describe potential risks and how you will address them</p>	<p>Have they identified major risks and proposed reasonable mitigation measures ?</p>
Finance & Sustainability	<p>15. Budget & Sustainability</p>	<p>Does the budget make sense?</p> <p>Do they have any other funding or at least applied for other funding?</p> <p>What happens if they do not receive planned non-IAU funding?</p> <p>Have they given thought to sustainability of project beyond IAU funding?</p>
Reviewer overall score	<p>Overall impression considering responses to all questions</p>	<p>What is your overall impression?</p> <p>Score between 1 (lowest) to 10 (highest)</p>

TIMELINE

The timeline below will be followed for Stage 2 of the 2025 call:

Stage 2	
August	Selected proposals invited for Stage 2; Teams encouraged to share proposal summary with other teams to stimulate collaboration
August - September	OAD and Regional Offices work with proposers to review/revise proposal, in consultation with external experts where relevant.
September 07	Last date for any consultation with the OAD and Regional Offices
September 15	Deadline for Stage 2 applications to be submitted online
September 16 - October 31	Evaluation by reviewers

mid November	Results announced
December	OAD works with winning projects to address concerns of review panel; Grant agreements sent to successful projects
January - February 2026	Project plans co-developed with each project; Funds transferred to projects and project activities begin
July 2026	Mid year reports due
January - February 2027	Final reports due

Reporting guidelines for funded projects

If your project is funded by the OAD, you are required to submit a final report (via an online form) at the end of the project along with any materials, resources that you may have produced for the project. Regular updates are also highly recommended during project implementation. Projects are typically implemented between January-February (when funding is received) and the first quarter of the next calendar year. More information on reporting guidelines and conditions of the grant will be provided at the time of selection.

Deadline for Stage 2 application is end of day, September 15, 2025 (midnight UTC-12)

As long as it is September 15 somewhere in the world, applications will be accepted
